We try and do our best for clients and are always keen to get client feedback on how we can improve. Apart from the presentation of our final report, clients appreciate most the ability to contact us in or out of office hours and our willingness to go the extra mile for them. Hopefully one day we will get your feedback too but in the meantime, please consider our client testimonials to date:

"We employed Liam at a time when our project was in need of a professional overhaul especially in our governance. At every stage the material and documentation was clear and without jargon. Our project would not be in such a healthy state today without the research which Liam put into the Final documentation. We are very confident that the Report will be an excellent reference for the new staff over the next 5 years."

Marie McGinnis

Ageing Well Roe Valley

"Liam McGarry's business advice is indispensable. From a startup with relatively little business experience, he was able to help us with our strategy and helped us to acquire funding. A friendly guy with solid business advice who's happy to help."

Lee Munroe

Founder Lookaly.com, TweetNI.com and LeeMunroe.com

"Liam is an honest and direct professional who has helped me to realise the potential market opportunity for Performa Sports. With Liam's wealth of knowledge he was able to offer the support I needed to prepare my business plan and model quickly. It was a great learning experience to work with Liam, and I would strongly recommend McGarry Consulting to anyone who needs that all important friendly advice to point you and your business in the right direction."

Danny Turley

Founder Performa Sports

"Overall an excellent experience for me - quick turnaround, value for money, high quality, professional service."

Heather Saunders

Project Co-ordinator Voice Programme

"I worked with Liam as part of a four council cluster which wanted to develop a joint strategy for local economic development projects. This would never be the easiest of tasks under any circumstances. But Liam handled all the problems and issues with professionalism at all times, despite the differences of opinion that working with four different areas presented. We have a document that can provide the basis for future collaborative working, and that was no mean feat!"

Liam has also provided talks and training for staff and community groups in Limavady - again, this has always been carried out in a timely, cost-effective and professional manner. I would recommend Liam to anyone in the business or community sector looking for that little bit of guidance!"

“Liam is a most efficient, thorough individual with creative flair, amazing general knowledge and vision thrown in. He gets the job done, on time, in every detail and within budget. Liam's real strength lies in his passion for community; sport and voluntary assistance which show him in true colours helping others giving advice, guidance and offering practical solutions. His ethos of doing good for others constantly brings the best out in those who work closely with him - a great colleague and friend.”

Jim Sanderson

CEO Leisure NI

“As CEO of Special Olympics Ireland we depend so much on the support we receive from so many people. It was very difficult to select three attributes that best describes Liam's engagement with our organisation as there are many more than three. Liam has provided us with exceptional advice on a consistent basis without any charge. Liam is always very obliging and totally committed to ensuring that we (in particular Special Olympics Ulster) achieve our targets. Liam demonstrates the highest levels of integrity and his broad base business skills are truly valued. I would have no hesitation in recommending him to any business or organisation that is focused on results, quality and professionalism.”
